FINGERTIPS

Your **Document Management**
Companion for **Cloud Storage**

FingerTips Cloud - the easier, smarter cloud-based document management solution for your Office

FingerTips Cloud is a revolutionary product that's built for the web. It's a hosted service which provides all the features of the on-premise version with the benefit of the cloud environment. FingerTips Cloud supports all popular browsers and mobile devices delivering access anytime, anywhere.

When using FingerTips Cloud hosted service, customers can enjoy the benefits of very low overhead and minimal start up investment, easy access via web browser and the reliability of AWS (Amazon Web Services) data center.

There is no server hardware to manage and there is no up-front capital investment. It's designed using robust enterprise architecture and is flexible and affordable to meet the needs of a small office or enterprise environments.

Ready When You Are

With hosted FingerTips Cloud no hardware is required. No more worries about setting up servers, configuring applications or lack of resources, especially in IT. You have all the mobility to access files from anywhere be it a PC, Smart Phone, Tablet or iPad with 24/7 access.

Key Features Included

- High speed access from any browser device.
- Leverage Smart Phones, Tablets and iPads.
- Manage your users and storage requirements based on need. FingerTips Cloud will grow with you.
- Users have 24/7 access to FingerTips Cloud and their files from virtually anywhere in the world via a browser and internet connection.
- Scan and index directly from your MFP.
- Cloud cabinet & folders will be displayed on MFP panel for easy storage.
- Ability to rename and scan files from the point of capture.
